31/01/2017 Paper Survey	2 My only issue is that if a patient is even a minute late for an appointment the the patient is then put to the back of the que - but no explanation provided at the time. I waited 40 minutes before asking whatthe delay was - and then had to leave without seeing a GP

31/01/2017 Paper Survey	5 Reception has far too many staff who are not always efficient. Repeat prescriptions are 50% not what ticked. Always weeks for an appointment with doctor od your choice. Newer doctors don't do anything for you!
